

VIRTUAL ADMISSION & DISCHARGE NURSING

Streamlining workflows,
Enhancing care transitions

WHAT IT IS

Our Virtual Admission & Discharge Nursing service enables remote nurses to collaborate with onsite staff to manage patient admissions, discharges, and care transitions. Through secure digital and EMR platforms, they handle clinical and non-clinical tasks to streamline care transitions and reduce bedside burden.

KEY FEATURES

Admission/Discharge Workflow Management: Streamlines patient transitions for faster, safer care delivery.

Medication Reconciliation: Reviews and verifies medications to prevent post-discharge discrepancies.

Real-Time EMR Documentation: Updates records instantly for accurate, compliant clinical information.

24/7 Coverage Options: Provides around-the-clock virtual nursing support for all units.

Seamless Collaboration with Onsite Teams: Integrates smoothly with bedside staff to enhance coordination.

WHO IT SUPPORTS

Onsite nursing teams, hospital leadership, and patients seeking smoother, more efficient care transitions. Ideal for hospitals, clinics, and rural facilities with limited staffing, high turnover and patient movement.

OUTCOMES YOU CAN EXPECT

3+

hours saved per unit/day

15-20%

increase in discharge throughput

30-40%

fewer interruptions to bedside nurses

100%

documentation compliance

Improved

patient flow and satisfaction

Higher

nurse satisfaction and reduced burnout
