

REIMAGINING HEALTHCARE DELIVERY

Innovative Nursing Solutions
To Optimize Healthcare

Women-Owned | U.S.-Based | Mission-Driven

Empowering Healthcare Teams Through Virtual
Nursing and Technology-Driven Care Solutions

ABOUT ALTRIX GROUP

Altrix Group is a team-focused virtual nursing service that provides innovative solutions to help our partners enhance healthcare strategies, helping to optimize operational efficiency and clinical productivity for better outcomes and experiences, not only for patients but also for nursing and healthcare teams.

Our Vision

To be the leading partner in virtual nursing and technology-enabled care, transforming how healthcare organizations deliver, document, and sustain patient-centered care.

Our Mission

To close critical gaps in healthcare delivery by enhancing care quality, operational efficiency, and workforce satisfaction through advanced virtual nursing solutions.

CULTURE AND VALUES

We are a women-owned healthcare organization delivering scalable, outcomes-driven virtual nursing solutions. Built on clinical expertise and innovation, we empower care teams through seamless integration, accountability, and measurable impact.

- **Integrity:** Maintain the highest ethical and professional standards.
- **Excellence:** Ensure precision and quality in every engagement.
- **Innovation:** Use technology and data to transform care.
- **Collaboration:** Work with partners to achieve shared goals.
- **Empowerment:** Enable teams to deliver their best.

01 Virtual Admission & Discharge Nursing

What We Do

- **Identify** patient info and medical records.
- **Assess** patient evaluations, including medication reconciliation.
- **Set patient goals** based on needs and outcomes.
- **Plan** care to ensure treatment quality.
- **Implement** care aligned with patient goals.
- **Coordinate** care across providers.
- **Evaluate** patients for discharge planning, including education and post-care.

Virtual Admission Nursing

- Provides documentation support by connecting with the floor nurse and completing health screen remotely.
- Reviews medications with patients/caregivers and contacts the pharmacy or provider for updates.
- Hands over key patient information to the floor nurse for seamless care.

Virtual Discharge Nursing

- Confirms patient readiness for discharge and verifies discharge orders.
- Reviews care coordination and treatment plans for comprehensive follow-up.
- Manages medication changes, doses, schedules, and ensures receipt by patients or caregivers.
- Educates patients on diagnosis, treatment, medications, and confirms care instructions and follow-up appointments.

Elevate the standard of patient care and outcomes

Altrix Group streamlines the admissions and discharge process by managing clinical and non-clinical tasks, freeing nursing and healthcare teams to focus on essential care, leading to better outcomes and experiences.

Why Choose Virtual Nursing?

Financial Savings: Manage nurse-to-patient ratios and staffing support, reduce attrition and retention costs

Patient Satisfaction: Deliver safe and quality of care to patients, improve outcomes and experiences

Provider Satisfaction: Reduce heavy workloads, improve operational efficiency and clinical productivity

02 Post-Discharge Care Solutions

What We Do

- **Promote** successful recoveries and mitigate potential complications through timely interventions and support.
- **Reinforce** care instructions and address concerns early on.
- **Optimize** resource utilization and promote financial sustainability.
- **Strengthen** connections with patients and healthcare providers.

Our Approach

Comprehensive Review and Support

- Our Discharge Care Specialists conduct thorough assessments of each patient's post-discharge health status.
- Personalized interactions gather insights, ensuring tailored support for optimal recovery and enhanced care delivery.

Utilization of Cutting-Edge Technology

- We leverage our proprietary Call Navigator technology to streamline post-discharge patient information management.
- Timely outreach within 72 hours to patients discharged, maximizing intervention effectiveness and ensuring seamless transitions.

Proactive Engagement and Assistance

- Our specialists reach out to patients to discuss health status, medication adherence, follow-up appointments, and pain management.
- We quickly identify discrepancies or concerns, guiding patients to appropriate resources and ensuring they receive the support they need.

Elevate the impact of post-discharge care

Seamless transitions from hospital to home are crucial for recovery, and post-discharge follow-up calls ensure continuity of care, support patient well-being, improve outcomes, and reduce readmissions.

Why opt for Post-Discharge Follow up?

Improved Outcomes: Follow-up calls reduce readmissions and enhance patient compliance with care instructions.

Enhanced Satisfaction: Personalized calls show genuine concern, boosting patient satisfaction and fostering loyalty.

Cost-Effective Care: Follow-ups help contain costs by preventing unnecessary readmissions and reducing healthcare expenditures.

03 Call Navigator Technology

What We Do

- **Smart Call Assignment:** Prioritizes patients based on discharge type for precise, risk-sensitive follow-up.
- **Customizable Protocols:** Adapts workflows to each department's post-care objectives and communication style.
- **Continuous Monitoring:** Captures live patient data, identifies care gaps, and alerts teams to emerging risks.
- **Progress Tracking:** Monitors compliance, satisfaction, and call outcomes to refine care strategies continuously.

Features and Expected Outcomes

Secure Web Platform

- Protects patient information and maintains strict confidentiality across all follow-up activities.

Seamless Integration

- Embeds into hospital systems for smooth coordination and data synchronization.

Real-Time Intelligence

- Tracks calls, performance, and patient engagement through intuitive dashboards.

Outcome Visibility

- Offers clear metrics on compliance, satisfaction, and program effectiveness.

Tangible Impact:

- **Improved Outcomes:** Fewer readmissions and stronger post-discharge adherence.
- **Enhanced Efficiency:** Streamlined workflows free clinical staff for higher-value care.
- **Data-Driven Insights:** Actionable feedback strengthens patient engagement and care strategy optimization.

Smart and Compliant Post-Discharge Care

Our innovative, web-based Call Navigator technology enhances post-discharge follow-up care by streamlining patient information management. It empowers healthcare providers to deliver timely, data-driven support during the critical transition from hospital to home.

Why opt for Call Navigator Technology

Personalized Follow-Up: Tailors patient interactions and questions by department or diagnosis to address specific care needs effectively.

Informed Decision-Making: Provides care teams with instant access to real-time patient feedback and recovery data for timely interventions.

Operational Efficiency: Automates call assignment and tracking, ensuring seamless coordination and consistent patient engagement across the care continuum.

WHY CHOOSE ALTRIX GROUP

Our technology-driven, virtual solutions enhance the efficiency of your healthcare team, ensure better care coordination, and support improved patient outcomes.

Financial Savings

Manage nurse-to-patient ratios and staffing support, reduce attrition & retention costs

Patient Satisfaction

Deliver safe and quality care to patients, improve outcomes and experiences

Provider Satisfaction

Reduce heavy workloads, improve operational efficiency and clinical productivity

Improve Outcomes

Reduce readmissions and enhance patient compliance with follow-up care instructions
